

# LOVE IS NOT A LINE

## Lua da Vida

Music by Ivonne Dekarski · Lyrics by Samia Little Elk

### Verse 1

Sometimes I wonder, quietly  
If we've been here before  
Not in the shape we are today  
But knocking on the same door  
Different names, another light  
Another place to stand  
Still the same familiar calm  
When you reach for my hand

### Pre-Chorus

I don't need answers carved in stone  
Or proof of where we've been  
I just feel something older  
Than the moment we're in

### Chorus

What if love is not a line  
But circles we don't see  
What if time just changes clothes  
And brings you back to me  
If every life is just a way  
To learn how not to part  
Then maybe we've been finding us  
By listening to the heart

### Verse 2

Maybe we met as passing souls  
In ordinary days  
Strangers sharing borrowed time  
In unremembered ways  
Different wounds, another skin  
Still learning how to stay  
Still choosing each other  
In a quiet human way

### Pre-Chorus 2

I don't claim to know the truth  
Or how the story bends  
I only know this closeness  
Feels like it never ends

### Chorus

What if love is not a line  
But circles we don't see  
What if time just changes clothes  
And brings you back to me  
If every life is just a way  
To learn how not to part  
Then maybe we've been finding us  
By listening to the heart

### Bridge

No fate, no signs, no higher plan  
Just choices made again  
Two lives aligning carefully  
Where chance and meaning blend  
If this is all we ever have  
I'm still not afraid  
And if we've walked this road before  
I'd walk it the same

### Final Chorus

Maybe love outlives the years  
The places and the names  
Maybe it's a quiet thread  
That time cannot erase  
Whether once or endlessly  
Here or far apart  
I'd know you in a moment  
By the feeling in my heart

### Outro

No promises beyond today  
No need to understand  
Just this familiar sense of home  
Whenever you take my hand
