

I HEAR YOU IN SILENCE

Lua da Vida

Music by Ivonne Dekarski · Lyrics by Samia Little Elk

Verse 1

I walk in your footsteps
The wind knows your name,
I follow each trace
that time can't erase

Pre-Chorus

Can't touch you now,
out of my sight
But your love's in my heart
It keeps me aligned

Chorus

I hear you in silence,
my heart and my mind
I follow the paths
that love left behind

Verse 2

In choices I make,
in words that I say
You're still guiding me,
showing the way

Pre-Chorus 2

I don't need your voice
to know what is true
Your love is still here
helping me through

Chorus

I hear you in silence,
you're woven in me
In who I am finally
learning to be

Outro

I walk on bravely,
awake and aware
Your courage in me,
I'm now ready to share
